No Payment for 90 Days

By financing an equipment need with no payment for 90 days, you can start growing now and pay later - allowing more time for new revenues to start rolling in. When you combine your deferred payments with year-end tax benefits, you can save big!

Year-end Tax Benefits

Section 179 of the IRS Code was enacted to help small businesses by allowing them to take a depreciation deduction for certain assets (capital expenditures) in one year, rather than depreciating them over a longer period of time.
